

# Fintech Week Lithuania | 2020

## Global Virtual Conference

15–18 June 2020

[www.fintechweek.lt](http://www.fintechweek.lt)

**Fintech Week Lithuania** – a first global virtual fintech conference where *Fintech experts, startups, venture capitalists, regulators, and other market participants* joined together to dig deeper into crucial issues related to fintech amid the unprecedented global pandemic. The event became a unique platform that connected speakers and participants from live studio and offices, to their homes and even sunny beaches.

New valuable business relationships were created during virtual B2B networking sessions, and startups battled for the opportunity to showcase their projects and secure the support that they need. **Fintech Week Lithuania** has culminated with the first-ever Lithuanian Fintech Awards, that perhaps continue as a new-born tradition.
